1. Thomas ME, Rasweiler IV JJ, D'Alessandro A
Experimental transmission of the parasitic flagellates *Trypanosoma cruzi* and *Trypanosoma rangeli* between triatomine bugs or mice and captive neotropical bats.
Mem. Ins. Osw. Cruz 2007 Aug; 102(5): 559-565.

2. Dias FBS, Diotaiuti L, Romanha AJ, Bezerra CM, Machado EMM
First report on the occurrence of *Trypanosoma rangeli* Tejera, 1920 in the state of Ceará, Brazil, in naturally infected triatomine Rhodnius nasutus Stal, 1859 (Hemiptera, Reduviidae, Triatominae).
Mem. Ins. Osw. Cruz 2007 Aug; 102(5): 643-645.

3. Poinar Jr G
Early Cretaceous trypanosomatids associated with fossil sand fly larvae in Burmese amber.
Mem. Ins. Osw. Cruz 2007 Aug; 102(5): 635-637.

4. Santoro GF, Cardoso MG, Guimaraes LG, Freire JM, Soares MJ.
Anti-proliferative effect of the essential oil of *Cymbopogon citratus* (DC) Stapf (lemongrass) on intracellular amastigotes, bloodstream trypomastigotes and culture epimastigotes of Trypanosoma cruzi (Protozoa: Kinetoplastida).
Parasitology. 2007 Aug 9;:1-8 [Epub ahead of print]
PMID: 17686189 [PubMed - as supplied by publisher]

5. Marinho CR, Nunez-Apaza LN, Martins-Santos R, Bastos KR, Bombeiro AL, Bucci DZ, Sardinha LR, Lima MR, Alvarez JM.
IFN-gamma, But Not Nitric Oxide or Specific IgG, is Essential for the In vivo Control of Low-virulence Sylvio X10/4 *Trypanosoma cruzi* Parasites.
Scand J Immunol. 2007 Aug;66(2-3):297-308.
PMID: 17635807 [PubMed - in process]

6. Acosta Rodriguez EV, Zuniga EI, Montes CL, Merino MC, Bermejo DA, Amezcua Vesely MC, Motran CC, Gruppi A.
Trypanosoma cruzi Infection Beats the B-cell Compartment Favouring Parasite Establishment: Can we Strike First?
Scand J Immunol. 2007 Aug;66(2-3):137-42.
PMID: 17635791 [PubMed - in process]

7. Scharfstein J, Schmitz V, Svensjo E, Granato A, Monteiro AC.
Kininogens Coordinate Adaptive Immunity through the Proteolytic Release of Bradykinin, an Endogenous Danger Signal Driving Dendritic Cell Maturation.
Scand J Immunol. 2007 Aug;66(2-3):128-36.
PMID: 17635790 [PubMed - in process]

8. Turnock DC, Ferguson MA.
Sugar Nucleotide Pools of *Trypanosoma brucei*, *Trypanosoma cruzi*, and *Leishmania major*.
Eukaryot Cell. 2007 Aug;6(8):1450-63. Epub 2007 Jun 8.
PMID: 17557881 [PubMed - in process]

9. Duthie MS, Kahn M, Zakayan A, White M, Kahn SJ.
Parasite-Induced Chronic Inflammation Is Not Exacerbated by Immunotherapy before or during *Trypanosoma cruzi* Infection.
Clin Vaccine Immunol. 2007 Aug;14(8):1005-12. Epub 2007 May 30.
PMID: 17538117 [PubMed - in process]

10. Waghabi MC, Keramidas M, Calvet CM, Meuser M, Soeiro Mde N, Mendonca-Lima L, Araujo-Jorge TC, Feige JJ, Bailly S.
SB-431542, a Transforming Growth Factor {beta} Inhibitor, Impairs *Trypanosoma cruzi* Infection in Cardiomyocytes and Parasite Cycle Completion.
Antimicrob Agents Chemother. 2007 Aug;51(8):2905-10. Epub 2007 May 25.
PMID: 17526757 [PubMed - in process]

11. Caballero ZC, Sousa OE, Marques WP, Saez-Alquezar A, Umezawa ES.
Evaluation of Serological Tests To Identify *Trypanosoma cruzi* Infection in Humans and Determine Cross-Reactivity with *Trypanosoma rangeli* and *Leishmania* spp.
Clin Vaccine Immunol. 2007 Aug;14(8):1045-9. Epub 2007 May 23.
PMID: 17522327 [PubMed - in process]

12. Coimbra VC, Yamamoto D, Khusal KG, Atayde VD, Fernandes MC, Mortara RA, Yoshida N, Alves MJ, Rabinovitch M.
Enucleated L929 cells support invasion, differentiation, and multiplication of *Trypanosoma cruzi* parasites.
Infect Immun. 2007 Aug;75(8):3700-6. Epub 2007 May 14.
PMID: 17502387 [PubMed - in process]
