#### 80 Acne: Tips and Tricks for the Pediatrician

Acne is a disease that occurs at an age when self-confidence is low and appearance issues can affect a child's future well-being as well as their present well-being.

*Guy F. Webster, MD, PhD*

#### 84 Food Allergies and Atopic Dermatitis: Differentiating Myth from Reality

Several studies have shown that 35% to 40% of children with moderate-to-severe atopic dermatitis also have food allergy.

*Lisa R. Forbes MD; Rushani W. Saltzman MD; and Jonathan M. Spergel, MD, PhD*

#### 91 Common Genodermatoses: What the Pediatrician Needs to Know

This review focuses on diagnostic criteria, screening evaluations, and unusual presentations of tuberous sclerosis, neurofibromatosis type 1, and incontinentia pigmenti.

*Julianne A. Mann, MD; and Dawn H. Siegel, MD*

#### 99 Contact Dermatitis: From Basics to Allergodromes

The burden of dermatitis can be overwhelming for all involved including the patient, family, pediatrician, and dermatologist.

*Rajiv I. Nijhawan, BS; Catalina Matiz, MD; and Sharon E. Jacob, MD*

#### 109 Pediatric Dermatologic Emergencies: A Case-Based Approach for the Pediatrician

This review presents a case-based approach to pediatric dermatologic emergencies.

*Paul L. Aronson, MD; and Todd A. Florin, MD*
