Functional Abdominal Pain in Children: New Understanding, Diagnostic Criteria, and Treatment Approaches

B U.K. Li, MD

Guest Editor

The International Congress of Gastroenterology presented its diagnostic criteria for irritable bowel syndrome in Rome in 1988. These “Rome criteria” have since been revised, most recently in 2006. Since that time, much has changed regarding the diagnosis of pediatric abdominal pain.

253 Functional Abdominal Pain:

All Roads Lead to Rome (Criteria)

Desale Jacob, MD; and Carlo Di Lorenzo, MD

259 Navigating Recurrent Abdominal Pain Through Clinical Clues, Red Flags, and Initial Testing

Joshua D. Noe, MD; and B U.K. Li, MD

267 Functional Abdominal Pain and Separation Anxiety: Helping the Child Return to School

Lynn S. Walker, PhD; Joy Beck, PhD; and Julia Anderson, MD

272 Treatment Approaches to Irritable Bowel Syndrome

Manu R. Sood, MD

279 Early Life Stress and Pain: An Important Link to Functional Bowel Disorder

Adrian Miranda, MD

283 Psychiatric Comorbidity and Functional Abdominal Pain

John V. Campo, MD; and Richard H. Gilchrist, MD

288 Treatment Options for Functional Gastrointestinal Disorders: From Empiric to Complementary Approaches

K. Lynette Whitfield, MD; and Robert J. Shulman, MD
